

## **i** How to import Version 10 Menus

Stop! There are database structure changes in Version 10. Menus must be upsized to SQL. This procedure only takes a few seconds. For more information, please watch the video or [click here](#) to learn more.

## Printing

- ✓ Food prints to "Kitchen". Drinks are not set to print

## General Notes

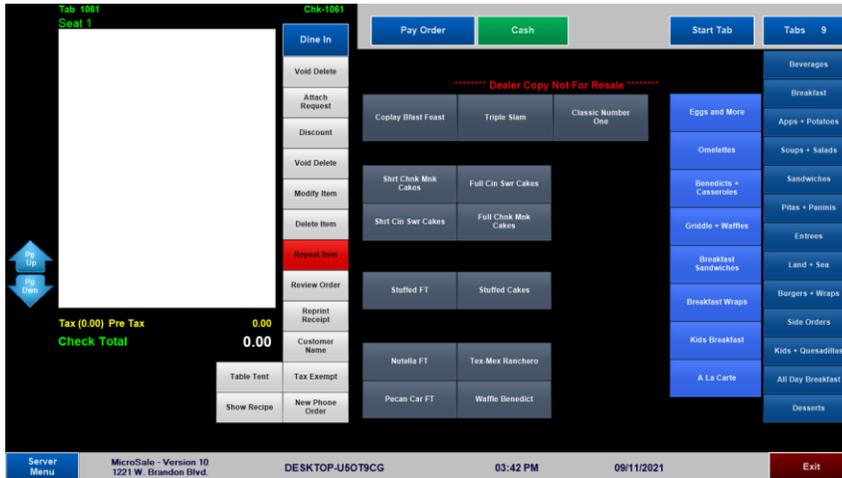

- ✓ You can modify any item with Modify Item function. Each section has its own set of modifier groups such as Breakfast Mods, Omelette Mods, Sandwich Mods. The No, Sub, Lite prefixes and keyboard buttons are all setup – you can add your own modifiers to these lists.
- ✓ No timed events used (however a Lunch 11-3 timed event name is saved)
